### RE: Relocation of Fitness Activities from Bradwall Road

Dear Member,

Sandbach Fitness has provided a high quality and friendly fitness service at Bradwall Road to many individuals for the past ten years. We have recently been informed that our current site will be reclaimed by our landlords for the re-development of affordable housing. We believe there is a partnership between our landlords, a housing association and the council to continue the development that now exists over the fitness centre.

Sandbach Fitness and Gymnastics intends to relocate to an industrial unit off Millbuck Way in Sandbach. This location is less than two miles from our present site. Should this move take place the new venue will be more suited to our activities. For us to survive we will need to expand the membership and range of activities we provide in order to support the substantial increase in annual rent / rates etc.

The new location is large enough to provide independent areas for both the fitness and gymnastics activities. Hopefully, we will soon be able to display a plan of the new location with a floor plan showing the gymnastics area, fitness area, changing facilities and a long awaited gymnastics viewing area. We will also have two sizeable upstairs rooms which will be available for bookings. Do you know of any dance group etc that is looking for somewhere to rent.

You will have noticed over the past year how the large fitness centres in Crewe have affected our membership levels. However, we do feel that we want to continue the fitness and gymnastics link in the one building.

We actively seek funding from granting agencies and local companies to support the children's gymnastics activities. If you know of any company that you feel may like to support or contribute to our relocation costs, please advise us. Thank you.

We expect to have between 6 – 9 months left here. We need as much of the membership to move with us!

-----  
Please indicate if you feel that you will be able to support us by joining us at the new location.

1. I would wish to continue training at Sandbach Fitness Centre at the new location.
2. I know of a company that may be willing to assist with the relocation costs.

Please return and indicate if and where you can help us. Thank you.
