RE: Relocation of Gymnastics and Fitness Activities from Bradwall Road

Dear Parent

Sandbach Gymnastics has provided a high quality tuition service at Bradwall Road to thousands of youngsters for the past fifteen years. We have recently been informed that our current site will be reclaimed by our landlords for the re-development of affordable housing. We believe there is a partnership between our landlords, a housing association and the council to continue the development that now exists over the fitness centre.

Sandbach Gymnastics intends to relocate to an industrial unit off Millbuck Way in Sandbach. This location is less than two miles from our present site. Should this move take place the new venue will be more suited to our activities. For us to survive we will need to expand the membership and range of classes available to support the substantial increase in annual rent / rates etc.

We need your help, *who do you know and can you help*. When we move we will have approximately one week only to turn around the building, which is a basic shell that will have to be made suitable for gymnastics and fitness activities. Hopefully, we will soon be able to display a plan of the new location with a floor plan showing the gymnastics area, fitness area, changing facilities and a long awaited gymnastics viewing area. We will also have two sizeable upstairs rooms which will be available for bookings. Do you know of any dance group etc that is looking for somewhere to rent.

We expect to have between 6 – 9 months left here. We need as much of the membership to move with us!

Please return this section if you can help or direct us to any support.

1. Do you know of any company that can donate any amount of funds to assist with the relocation costs?
2. Do you know of any company that can donate any amount of funds to assist with the purchase of the increased equipment that we will need?
3. Is there a tradesman in your family that can support us during the renovation period?
4. Can you help with dismantling of the equipment and furnishings at the current location?
5. Can you help with dismantling of the equipment and furnishings at the new location?

Please return and indicate if and where you can help us. Thank you.

_____ *can help with the above ticked items, contact me on* _____.
